UKRAINE:
ANIMAL FEED and
FEED SUPPLEMENTS
MARKET

Market Research
Kyiv 2011
# TABLE OF CONTENTS

**SUMMARY** .................................................................................................................................................. 4

**MAIN TYPES AND FUNCTIONAL CHARACTERISTICS OF FEEDS AND SUPPLEMENTARY FEEDS** .................................................................................................................................................. 5
  - Grain, Coarse and Succulent Feeds, Protein and Enriched Components, Feed Mixes ............... 5
  - Complete Compound Feeds .................................................................................................................. 11
  - Supplementary Feeds (PVS, PVMS, Protein and Amino Acids, Feed Yeasts, Vitamins, Ferments) and Premixes ......................................................................................................................... 12
  - Concentrated Compound Feeds ......................................................................................................... 15

**GLOBAL MARKET** ...................................................................................................................................... 15
  - Overview of Animal Husbandry, Compound Feeds and Supplementary Feeds Market ............. 15
  - Brief Description and Trends of Compound Feeds Markets in Russia and Belarus .................... 35
  - Leading Producers of Supplementary Feeds and Premixes .............................................................. 40

**FEEDSTOCK BASE** ..................................................................................................................................... 43
  - Main Trends Characterizing Production and Competitive Consumption of Fodder Feedstock 43
    - Feed Cereal Crops and By-Products ............................................................................................... 43
    - Oilseed Meals and Presscakes ........................................................................................................ 50
    - Products of Animal Origin ............................................................................................................ 52
    - Enriching Ingredients .................................................................................................................... 52

**PRODUCTION OF COMPOUND FEEDS AND SUPPLEMENTARY FEEDS** ........................................... 53
  - Industry Overview and Structure ...................................................................................................... 53
  - Main Groups of Compound Feed Producers and Their Description ............................................. 53
  - Production Geography and Factors Forming It ............................................................................... 54
  - Production of Animal Feeds .............................................................................................................. 57
    - Not everything produced is compound feed. Production of unbalanced feeds and feed mixes 57
      - Compound Feeds for Poultry ....................................................................................................... 60
      - Compound Feeds for Cattle ........................................................................................................ 64
      - Compound Feeds for Swine ......................................................................................................... 67
    - Other Types of Compound Feeds for Farm Livestock, Premixes and PVS ................................. 70
    - Evaluation of Share of Granulated Compound Feeds ................................................................. 71
  - Production of Supplementary Feeds and Premixes ....................................................................... 72
  - Competition in the Branch ................................................................................................................. 74
    - Factors Determining Products Competitive Power, Marketing Policy ........................................ 74
    - Rating and Brief Description of Leading Companies in Compound Feeds and Supplementary Feeds Industry .......................................................................................................................... 76
    - Problem of Under-Loading of Compound Feed Enterprises and Shadow Feeds Market ........ 82
    - Quality Problems of Produced Products ....................................................................................... 83
    - Interregional and International Competition ............................................................................... 84
  - Branch Economics (Production Costs, Profitability, Cost Structure) and Ways to Improve Profitability .............................................................................................................................................. 84
  - Main Price Setting Factors and Price Trends ................................................................................... 87
  - Development of Production Facilities and Branch Investment Potential ..................................... 89
    - Compound Feeds Production ........................................................................................................ 89
    - Production of Supplementary Feeds and Premixes .................................................................... 91
List of Tables

Table 1. Global Market: Dynamics of Cattle Population, mln heads .......................................................... 16
Table 2. Global Market: Dynamics of Swine Population in 2005-2010, mln heads ....................................... 17
Table 4. Global Market: Production and Feed Consumption of Cereal Crops (Wheat and Feed Cereal Crops) by Individual Countries in MY 2008/2009, thousand tons ..................................................... 23
Table 5. Global Market: Production and Feed Consumption of Wheat by Individual Countries in MY 2008/2009, thousand tons ................................................................. 23
Table 6. Global Market: Production and Feed Consumption of Feed Cereal Crops by Individual Countries in MY 2008/2009, thousand tons ................................................................. 23
Table 7. Global Market: Dynamics of Production of Main Types of Meal in General by Some Countries in MY 2006/07 – 2010/11, thousand tons ............................................................... 24
Table 11. Global Market: Compound Feeds Production in 2008, thousand tons .................................................. 28
Table 12. Global Market: Feeds Production in Different EU Member States* in 2008-2009, thousand t .............. 30
Table 13. Russia: Size of Farm Livestock Population in Different Types of Farms (as of the end of year) in 2005-2009, thousand heads ................................................................. 35
Table 14. Russia: Structure of Livestock Population in Different Types of Farms (as of the end of year) in 2005-2009, % ................................................................. 36
Table 15. Russia: Availability of Feeds in All Types of Farms (as of the end of year) in 2005-2009 ................. 36
Table 16. Russia: TOP-10 Leading Producers of Compound Feeds ............................................................ 38
Table 17. Russia: Volumes of Production of Various Types of Compound Feeds in 2008-2009, thousand tons ....... 39
Table 18. Belarus: Size of Farm Livestock Population in All Types of Farms (as of the end of year) in 2005-2009, thousand heads ................................................................. 39
Table 19. Belarus: Leading Compound Feeds Producers .............................................................................. 40
Table 20. Ukraine: Production of Main Types of Agricultural Crops by All Categories of Farms in 2008-2009, thousand tons ................................................................. 43
Table 21. Ukraine: Balance of Demand and Supply of Cereal Crops and Grain Legumes* in MY 2005/06-2010/11, thousand tons ................................................................. 44
Table 22. Ukraine: Estimate of Yield of Cereal Crops and Gain Legumes in Ukraine in 2010 (as of November 2010) ................................................................. 45
Table 23. Ukraine: Volumes of Processed Cereal Crops and Grain Legumes in 2009 ........................................ 45
Table 24. Ukraine: Volumes of Processed Cereal Crops and Grain Legumes in 2010 ........................................ 46
Table 25. Ukraine: Production of Different Types of Starch Except for Modified Starch in 2008-2009, tons ......... 46
Table 26. Ukraine: Production of Corn Starch in Different Regions in 2008-2009, tons ...................................... 46
Table 27. Ukraine: Production of Ethyl Alcohol in Different Regions in 2008-2009, thousand dekaliters ............ 47
Table 28. Ukraine: Malt Production in Different Regions in 2008-2009, thousand tons ...................................... 48
Table 29. Ukraine: Production of Bran and Cereal Crops By-Products in Different Regions in 2008-2009, thousand tons ................................................................. 49
Table 30. Ukraine: Production of Oilseed Meals and Presscakes (including soybean meal) in Different Regions in 2008-2009, thousand tons ................................................................. 51
Table 31. Ukraine: Production of Flour and Powder of Fish, Shellfish or Other Water Invertebrates in Different Regions in 2008-2009, tons ................................................................. 52
Table 32. Ukraine: Production of Powdered and Granulated Meat in 2008-2009, tons .................................................. 52
Table 33. Ukraine: Production of Feeds for Farm Livestock and Barnyard Poultry in Different Regions in 2008-2010*, thousand tons ........................................................................................................ 54
Table 34. Ukraine: Livestock and Poultry Population in Conventional Cattle Stock Equivalent in 2009-2010 (as of the end of year) ................................. 56
Table 35. Ukraine: Need for Compound Feeds for Swine, 2009 ................................................................. 58
Table 36. Ukraine: Demand for Compound Feeds for Cattle, 2009 ........................................................ 58
Table 37. Ukraine: Demand for Compound Feeds for Poultry, 2009 ........................................................ 59
Table 38. Ukraine: Production of Compound Feeds for Barnyard Poultry in Different Regions in 2008-2009, thousand t ................................................................. 61
Table 39. Ukraine: TOP-20 Companies Producing Compound Feeds for Barnyard Poultry in 2008-2009 ............. 61
Table 40. Ukraine: Production of Compound Feeds for Cattle in Different Regions in 2008-2009, thousand tons ........................................................................................................ 65
Table 41. Ukraine: TOP-20 Companies Producing Compound Feeds for Cattle in 2008-2009 ................. 67
Table 42. Ukraine: Production of Compound Feeds for Swine in Different Regions in 2008-2009, thousand tons ........................................................................................................ 67
Table 43. Ukraine: TOP-20 Companies Producing Feeds for Swine in 2008-2009 .................................................. 68
Table 44. Ukraine: Production of Other Types of Compound Feeds, Supplementary Feeds and Premixes for Farm Animals in Different Regions in 2008-2009, thousand tons ................................................................. 70
Table 45. Ukraine: TOP-20 Companies Producing Feeds for Other Types of Animals, Premixes and PVS in 2008-2009 ........................................................................................................ 71
Table 46. Recommended Size of Compound Feeds Granules (cross section in mm) ........................................... 72
Table 47. Ukraine: TOP-20 Producers of Compound Feeds for All Types of Farm Livestock and Poultry, Including Premixes and PVS, in 2009-2010 (small businesses not included) ................. 76
Table 48. Approximate Structure of Costs for Compound Feeds Production .................................................. 85
Table 49. Tentative Structure of Production Costs of Compound Feed for Poultry (laying hens, peak of laying period), 1 ton VAT included (prices given as of 22.10. 2010) ............................................................... 85
Table 50. Tentative Structure of Production of Compound Feeds for Young Cattle Aged from 6 to 12 Months, 1 ton VAT included (prices given as of 22.10. 2010) ............................................................... 85
Table 51. Tentative Structure of Production of Compound Feeds for Fattening Swine, 1 ton VAT included (prices given as of 22.10. 2010) ............................................................... 85
Table 52. Ukraine: Average Level of Prices for Some Types of Compound Feeds and PVMS as of October 2010 ........................................................................................................ 86
Table 53. Ukraine: Indicators Characterizing Exports of Feed Components, Ready Compound Feeds, Supplementary Feeds and Premixes in 2006-2010* ......................................................... 88
Table 54. Ukraine: Dynamics of Indicators Characterizing Bran Exports in 2008-2010 ........................................ 92
Table 55. Ukraine: Geography of Bran Exports, TOP-5 Buyers in 2008-2010 ...................................................... 94
Table 56. Ukraine: Dynamics of Indicators Characterizing Corn Feed Exports in 2008-2010 ......................... 95
Table 57. Ukrainian Market: Geography of Exports of Corn Feed, TOP-5 Buyers in 2008-2010 ......................... 96
Table 58. Ukraine: TOP-20 Leading Companies Exporting Bran in 2008-2010 ................................................ 98
Table 59. Ukraine: TOP-3 Leading Companies Exporting Corn Feed in 2008-2010 ........................................ 99
Table 60. Ukraine: TOP-20 Leading Foreign Buyers of Bran in 2008-2010 ..................................................... 99
Table 61. Ukraine: TOP-10 Leading Foreign Buyers of Corn Feed in 2008-2010 ............................................. 100
Table 62. Ukraine: Indicators Characterizing Imports of Feed Components, Supplementary Feeds and Premixes in 2006-2010 ................................................................. 101
Table 63. Ukraine: Dynamics of Indicators Characterizing Soybean Meal Imports in 2008-2010 .................. 103
Table 64. Ukraine: Geography of Soybean Imports, TOP-5 Countries in 2008-2010 ...................................... 104
Table 97. Ukraine: Production, Consumption* and Potential Demand* for Compound Feeds for Cattle in All Categories of Farms in 2009, thousand tons ................................................................. 140
Table 98. Ukraine: Size if Swine Population in 2008-2011, thousand heads ................................................................. 142
Table 99. Ukraine: Size and Density of Distribution of Swine Stock per 100 ha Arable Lands (including plough lands) in Different Regions, All Categories of Farms, 2008-2010, (end of year) ............................................................... 143
Table 100. Ukraine: Production, Consumption* and Potential Demand* for Compound Feeds for Swine by All Categories of Farms in 2009, thousand tons ................................................................. 145
Table 101. Ukraine: Size of Sheep and Goats Population in 2007-2010, thousand heads ................................................................. 146
