UKRAINE: GRAIN EXPORT LOGISTICS

Market Research

Kiev, 2010
# TABLE OF CONTENTS:

**INTRODUCTION** .................................................................................................................. 5

**GAIN CROPS AND OILSEEDS MARKET** ........................................................................ 7

- General Overview .................................................................................................................. 7
- Main Trends .......................................................................................................................... 9
  - Production ......................................................................................................................... 9
  - Consumption and Trade ...................................................................................................... 16
- Development Processes ........................................................................................................ 19

**FOREIGN TRADE** ............................................................................................................ 22

- Exports ................................................................................................................................. 22
  - Main Trends ..................................................................................................................... 22
  - Indicators, Dynamics, Geography .................................................................................... 24
  - Leading Exporters and Foreign Buyers ............................................................................ 32
  - Assessment of Ukraine’s Place in World Grain Market .................................................. 34
- Imports ................................................................................................................................. 38
  - Main Trends and Indicators ............................................................................................. 38

**GRAIN WAY FROM FIELD TO CONSUMER** ................................................................. 40

- General Overview ................................................................................................................ 40
- Main Lines of Commodity Flows Movement ..................................................................... 41
- Basic Links of Logistic Chain ............................................................................................. 42
  - Characteristics and Order ............................................................................................... 42
  - Tentative Added Value and Share in the Final Price for a Consumer .............................. 44
  - Impact on Price-Setting .................................................................................................. 45
- Main Participants of the Grain Market .............................................................................. 47
  - Description ....................................................................................................................... 47
  - Role in Logistic Chain ...................................................................................................... 50
- Main Logistic Problems ....................................................................................................... 51

**GRANARIES AND ELEVATORS** .................................................................................... 53

- Place in Logistic Chain of Grain Trade ............................................................................. 53
- Overview of Grain Storage Industry .................................................................................. 53
  - Indicators, Geography and Capacity, Compliance with Grain Production Volumes in the Region ................................................................................................................. 53
  - Warehouses Belonging to Commodity Producers, “Rural” and Linear Warehouses .... 59
  - Rating of Elevators and Owners .................................................................................... 60
  - Alternative Methods of Grain Storage ............................................................................ 61
- Technical Condition ............................................................................................................ 63
  - Basic Design and Technical Characteristics .................................................................. 63
  - Technical Condition ........................................................................................................ 65
  - Grain Collection/Loading Capacities, Correspondence to Transportation Channels ....... 66
  - Modernization ................................................................................................................ 68
- Activities Overview ............................................................................................................. 68
  - Provided Services and Their Cost .................................................................................. 68
  - Loading ............................................................................................................................. 70
AUTOMOBILE TRANSPORTATION ................................................................. 82

Place in Logistic Chain of Grain Trade .......................................................... 82

Grain Transportation Characteristics ............................................................. 83

- Main Advantages of Motor Transportation ..................................................... 83
- Principal Geography and Directions ............................................................... 84
- Car Park, Availability of Specialized Equipment ............................................. 88

Tentative Transportation Cost and Dependence on Distance .................................. 90

Problems and Prospects of Motor Transportation Development ................................. 90

RAILROAD TRANSPORTATION ...................................................................... 91

Place in Logistic Chain of Grain Trade .......................................................... 91

Railroad Grain Transportation Characteristics .................................................. 92

- Main Transportation Directions and Volumes .................................................. 92
- Export Corridors ............................................................................................... 95
- Availability and Condition of Hopper Fleet ...................................................... 96

Cost of Railroad Transportation ......................................................................... 99

- Railroad Tariffs and Their Components, Dynamics ........................................... 99
- Cost Calculation for Main Transportation Destinations .................................... 100
- Impact of Tariffs and Costs on Transportation Volumes and Profitability of Grain Trade .................................................. 104

Organization of Transportation ......................................................................... 105

Lease and Purchase of Hoppers ......................................................................... 105

Advantages/Disadvantages .................................................................................. 106

Private Cargo Carriers and Owners ................................................................... 107

Problems and Prospects of Development of Railroad Transportation ...................... 107

RIVER TRANSPORTATION ............................................................................ 109

Place in Logistic Chain of Grain Trade .......................................................... 109

Reasons of Interests in River Transportation Development .................................... 109

Description of Grain Transportation by River .................................................... 111

- Main Trends, Directions and Volumes of Transportation .................................. 111
- Main River Routes and Principal Terminals, Technical Condition and Opportunities .................................................. 112
- Compatibility of Regional Production Volumes and Location of Elevator ............ 115
- Towing and Barge Industry .............................................................................. 116

Evaluation of Costs of Grain Transportation by River to Ports and for Exports .......... 117

Tariffs and Total Cost ....................................................................................... 117

Comparison with Transportation by Other Types of Transport .............................. 117

Analysis of Prospects of Development of Grain Transportation by River for Grain Trading Companies .................................................. 118

Problems and Prospects of Construction of River Terminals and River Transportation Development .................................................................................................. 122
SEA PORTS ................................................................. 124

Port Industry Description in Terms of Grain Trade ................................................................. 124

Grain Ports and Their Comparison: Basic Characteristics, Received Vessels ....................... 124

Leading Port Grain Terminals. Comparison and Technical Equipment .................................... 138

Methods of Grain Transshipment in Ports, Comparison ............................................................ 141

Volumes and Dynamics of Grain Exports through Ports .......................................................... 142

Owners and Operators of Port Terminals .................................................................................. 153

Tariffs and Costs .......................................................................................................................... 155

Port Tariffs and Other Components of Transshipment Costs, Dynamics .................................. 155

Impact on Dynamics of Loading and Profitability of Grain Trade ............................................ 159

Freight as Element Influencing Final Cost .................................................................................. 159

Competition among Ports for Grain Flows ................................................................................. 161

Legislation that Regulates Functioning of Ports and Grain Terminals, Interaction with State-Owned Ports .................................................................................................................. 163

Problems and Prospects ............................................................................................................. 166

Existing Problems and Ways to Solve Them .............................................................................. 166

Prospects for Construction of Port Grain Terminals and Growth of Exports Potential ................. 169

Ports Development ....................................................................................................................... 171

OTHER LOGISTICAL EXPENSES ......................................................................................... 173

Licensing .................................................................................................................................... 173

Certification .................................................................................................................................. 174

Other .......................................................................................................................................... 179

STATE POLICY ON GRAIN LOGISTICS ............................................................................. 180

FORWARDERS’ ACTIVITIES ................................................................................................. 183

Principal Methods of Work and Interaction with Grain Trading Companies .............................. 183

Large Ukrainian Exporters ........................................................................................................ 184

METHODS OF DECREASING LOGISTICS EXPENSES .................................................... 186

Methodology of Logistics Expenses Calculation ...................................................................... 186

Ways to decrease logistic expenses ............................................................................................ 187

Forwarder as Part of Grain Trading Company: Advantages/Disadvantages .............................. 187

PROSPECTS OF DEVELOPMENT OF GRAIN EXPORT LOGISTICS ......................... 188

STATISTICS ............................................................................................................................... 192

Production and Storage ................................................................................................................ 192

Exports ...................................................................................................................................... 198

APPENDIX ............................................................................................................................... 214

LIST OF TABLES ....................................................................................................................... 221

LIST OF FIGURES AND DIAGRAMS ...................................................................................... 224
List of Tables

Table 1. Ukraine: Production of Grain Crops in 2004-2009 ................................................................. 11
Table 2. Ukraine: Oilseed Crops Production Indicators, 2004-2009 .................................................. 13
Table 3. Ukraine: Balance of Supply and Demand for Grain Crops* in MY 2005/06-2010/11, thousand tons ........................................... 17
Table 4. Ukraine: Balance of Sunflower Seeds Market in MY 2005/06-2010/11, thousand tons ........................................... 18
Table 5. Ukraine: Rapeseed Market Balance in MY 2005/06-20010/11, thousand tons ........................................... 19
Table 6. Ukraine: Soybean Market Balance in MY 2005/06-20010/11, thousand tons ........................................... 19
Table 7. Ukraine: Exports of Commercial Grain by Crops in MY 2004/05-2009/10, thousand t ........................................... 25
Table 8. Ukraine: Indicators Characterizing Grain Exports by Crops in MY 2008/09-2009/10 ........................................... 25
Table 9. Ukraine: Indicators Characterizing Exports of Oilseeds by Crops in MY 2005/06-2009/10, thousand tons ........................................... 27
Table 10. Ukraine: Indicators Characterizing Oilseed Exports by Crops in MY 2008/09-2009/10 ........................................... 27
Table 11. Ukraine: Indicators Characterizing Exports of Commercial Grain and Oilseed Crops in MY 2005/06-2009/10, thousand tons ........................................... 28
Table 12. Ukraine: Geography of Grain Crops Exports (TOP-20) in MY 2007/08-2009/10 ........................................... 29
Table 13. Ukraine: Geography of Oilseeds Exports (TOP-20) in MY 2007/08-2009/10 ........................................... 31
Table 14. Ukraine: Geography of Rapeseed Exports (TOP-5) in MY 2007/08-2009/10 ........................................... 31
Table 15. Ukraine’s Position in the Global Market of Grain Crops in MY 2007/08-2009/10 ........................................... 35
Table 16. Ukraine’s Place in the World Market of Oilseeds in MY 2007/08-2009/10 ........................................... 37
Table 17. Ukraine’s Place in the World Market of Grain Crops and Oilseeds in MY 2007/08-2009/10 ........................................... 38
Table 18. Ukraine: Imports of Commercial Grain by Crops in MY 2005/06-2009/10, tons ........................................... 39
Table 19. Ukraine: Imports of Oilseeds by Crops in MY 2005/06-2009/10, tons ........................................... 39
Table 20. Ukraine: Estimated Yield of Grain Crops and Oilseeds, October 2010 ........................................... 41
Table 21. Ukraine: Dynamics and Example of Calculation of Logistics Expenses for Grain Transportation/Certification and FOB Prices in 2007-2010, UAH/t ........................................... 46
Table 22. Ukraine: Gross Yield of Grain Crops and the Number of Certified Elevators by Region, 2008-2010 ........................................... 54
Table 23. Ukraine: Grain Gross Yield and Elevators Capacity, as of the end of 2008-2009, mln t ........................................... 57
Table 24. Ukraine: Regions Rating by Grain Production and Availability of Certified Grain Warehouses Capacities ........................................... 59
Table 25. Ukraine: TOP-10 of Elevators by Storage Capacity ................................................................. 61
Table 26. Grain Storage Duration in Polyethylene Flexible Pipes Depending on Moisture Content ........................................... 62
Table 27. Ukraine: Prices for Main Services of Elevators, 2006-2007, UAH/t ........................................... 69
Table 28. Ukraine: Prices for Main Services of Elevators, 2008-2009, UAH/t ........................................... 70
Table 29. Ukraine: Change of Prices for Main Elevator Services compared to Previous Years, 2008-2009, % ........................................... 70
Table 30. Ukraine: Amount of Grain Received by Elevators in 2006-2009 ........................................... 71
Table 31. Ukraine: Some Leased Elevators ................................................................. 74
Table 32. Ukraine: Transportation of Goods, incl. Grain Crops, by motor truck transport, 2009, thousand t ........................................... 84
Table 33. Ukraine: Share of Export Corridors by Grain and Oilseed Crops for Motor Truck Transport, MY 2008/09 ........................................... 85
Table 34. Ukraine: Share of Export Corridors by Oilseeds Transported by Motor Vehicles in MY2008/09 ........................................... 86
Table 35. Ukraine: Cargo Shipment Using Carrying Equipment of General Railroad Transport in 2009 ........................................... 92
Table 36. Ukraine: Share of Export Corridors by Grains and Oilseeds, Railway Transport, MY 2008/09 ........................................... 95
Table 37. Ukraine: Share of Export Corridors by Grains, Railway Transport, MY 2008/09 ........................................... 96
Table 38. Ukraine: Share of Export Corridors by Oilseeds, Railway Transport, MY 2008/09
Table 39. Ukraine: Average Costs of Wheat Railway Transportation from Growing Areas to Ports and Export Border Corridors
Table 40. Ukraine: Average Cost of Railway Barley Transportation from Growing Areas to Ports and Export Border Corridors
Table 41. Ukraine: Average Cost of Railway Corn Transportation from Growing Areas to Ports and Export Border Corridors
Table 42. Ukraine: Average Cost of Railway Rapeseed Transportation from Growing Areas to Ports and Export Border Corridors
Table 43. Ukraine: Average Cost of Railway Sunflower Transportation from Growing Areas to Ports and Export Border Corridors
Table 44. Ukraine: Cargoes Transition for Exports in River Ports (Wharfs), 2008-2009, thousand t
Table 45. Ukraine: Grain Transition for Exports through Wharfs of River Ports, 2008-2009, thousand t
Table 46. Ukraine: River Cargo Transportation, 2008-2009, thousand t
Table 47. Ukraine: River Grain Transportation, 2008-2009, thousand t
Table 48. Ukraine: Volumes of Grain Production and Elevators Availability in Regions, Through Which the Navigable Part of the Dnieper is Flowing
Table 49. Ukraine: Characteristics of Some River Elevators in the USSR
Table 50. Ukraine: Brief Description of Ferry Crossings
Table 51. Ukraine: Generalized Table of Available Capacities of Grain Cargos Handling by Sea Commercial and Grain Terminals (Elevators)
Table 52. Ukraine: Characteristics of Ports Technological Infrastructure, All Cargos
Table 53. Ukraine: Grain Storage Volumes in Ports, thousand t
Table 54. Ukraine: Transshipment Capacities of Port Grain Terminals, mln t
Table 55. Ukraine: Characteristics of Grain Terminals
Table 56. Ukraine: the Structure of Grains and Oilseeds Offshore Loading Options, MY 2004/05-2009/2010
Table 57. Ukraine: the Structure of Grains Offshore Loading Options, MY* 2004/05-2009/2010
Table 60. Ukraine: Oilseeds Transshipment through Ports, MY 2004/2005-2009/2010, thousand t
Table 63. Ukraine: TOP-10 Grains Loading in Mykolaiv Port by Destination Countries, MY 2009/10*
Table 64. Ukraine: TOP-10 Grain Loading in Odesa Port by Destination Countries, MY 2009/10
Table 65. Ukraine: TOP-10 Grain Shipment from Illichivsk Port by Destination Countries, MY 2009/10
Table 66. Ukraine: TOP-10 Grain Shipment from Pivdennyi Port by Destination Countries, MY 2009/10
Table 67. Ukraine: TOP-20 Largest Ship Freighters in Grains and Oilseeds Sea Shipments, MY 2008/09-2009/10
Table 68. Ukraine: Main Grain Operators in Ports
Table 69. Blanket Rates for Handling Operations (foreign trade cargos), USD/t (excluding VAT)
Table 70. Exclusive Payment Rates for Handling Operations with Grain and other Food Cargos (foreign trade cargos), USD/t
Table 71. Blanket Rates for Handling Operations under Own Power or Vehicle Towing to Ships with Horizontal Loading Method (foreign trade cargos), USD/unit (excl. VAT)
Table 72. Some Freight Rates for Sea Transportation of Grains and Soybean, the 12th of November 2010, S/t. 160
Table 73. Ukraine: Volume of Investments to the Largest Ukrainian Ports, 2008-2010, mln UAH ............................. 162
Table 74. Ukraine: Grain Terminals Development in Ports .................................................................................. 170
Table 75. Ukraine: Cost of Inspection and Preparation of Certificates of Quality of Grain and Its Processing Products during Shipment, Receipt and Transit ................................................................. 175
Table 76. Ukraine: Cost of Grain Warehouses Certification as for Compliance of Grain and Its Processing Products Storage Services .................................................................................................. 178
Table 77. Ukraine: Large Freight Forwarders in Automobile Grain Transportation ........................................... 185
Table 78. Ukraine: Large Freight Forwarders in Railroad Grain Transportation .................................................. 185
Table 79. Ukraine: Large Freight Forwarders in Sea Grain Shipments ............................................................... 185
Table 80. Ukraine: Indicators of Grain Export Infrastructure Development up to 2015 ........................................... 189
Table 81. Ukraine: Production of Grains and Grain Legumes by Region, 2008-2009 ............................................. 192
Table 82. Ukraine: Production of Wheat by Region, 2008-2009 ........................................................................ 193
Table 83. Ukraine: Production of Barley by Region, 2008-2009* ................................................................. 193
Table 84. Ukraine: Production of Corn by Region, 2008-2009 ....................................................................... 194
Table 85. Ukraine: Production of Sunflower by Region, 2008-2009 ................................................................. 194
Table 86. Ukraine: Production of Rapeseed by Region, 2008-2009 ................................................................. 195
Table 87. Ukraine: Production of Soybean by Region, 2008-2009 ................................................................. 195
Table 88. Ukraine: Capacities and Utilization Level of Elevators by Region, 2008 ............................................ 196
Table 89. Ukraine: Capacities and Utilization Level of Elevators by Region, 2009 ............................................. 197
Table 90. Ukraine: TOP-30 Main Grain Exporters, MY 2008/09-2009/10, % .................................................... 198
Table 91. Ukraine: TOP-30 Main Foreign Grain Buyers, MY 2008/09-2009/10, % ............................................. 199
Table 92. Ukraine: TOP-20 Main Oilseed Exporters, MY 2008/09-2009/10, % .................................................... 199
Table 93. Ukraine: TOP-20 Main Foreign Oilseed Buyers, MY 2008/09-2009/10, % ........................................... 200
Table 94. Ukraine: TOP-10 Exporters of Rapeseed, MY 2008/09-2009/10, % ............................................... 200
Table 95. Ukraine: TOP-10 Main Foreign Rapeseed Buyers, MY 2008/09-2009/10, % ....................................... 200
Table 96. Ukraine: TOP-20 Main Exporters of Grains and Oilseeds, MY 2008/09-2009/10, % ................. 201
Table 97. Ukraine: TOP-20 Main Foreign Buyers of Grains and Oilseeds, MY 2008/09-2009/10, % .......... 201
Table 98. Ukraine: Cargo Transportation, including Grains, by Motor Truck Transport, 2008, thousand t.... 202
Table 99. Ukraine: Cargo Transportation, including Grains, by Motor Truck Transport, 2009, thousand t.... 203
Table 100. Ukraine: Geography of Grain Exports by Overland Export Corridors, MY 2008/09 .......................... 204
Table 101. Ukraine: Geography of Oilseeds Exports by Overland Export Corridors, MY 2008/09 ............... 205
Table 102. Ukraine: Cargo Transit in Sea (River) Ports (Wharfs), 2008, thousand t ........................................... 206
Table 103. Ukraine: Cargo Transit in Sea (River) Ports (Wharfs), 2008, thousand t ........................................... 206
Table 104. Ukraine: 2009 Ratio Compared to 2008 as for Cargo Transit in Sea (River) Ports (Wharfs), % ...... 207
Table 108. Approximate Cost of Cargo Transportation by Motor Transport in Ukraine ............................. 214
Table 109. Approximate Cost of International Cargo Transportation by Motor Transport .............................. 214
Table 110. List of the State Border Crossing Points where Sanitary, Veterinary, Phytosanitary, Radiological and Ecological Control is Exercised ................................................................. 215
Table 111. General Overview of Ukrainian Ports ...................................................................................... 219
List of Figures and Diagrams

Figure 1. Basic Scheme of Grain Exports Logistics ................................................................. 42
Figure 2. Ukraine: Regional Distribution of Certified Grain Storage Facilities and Their Capacities ............... 55
Figure 3. Ukraine: Harvested Areas, Gross Yield of Grains and Grain Legumes, Quantity of Certified Storages and Silos by Region in 2009 ................................................................. 58
Figure 4. Grain Storage in Flexible Polyethylene Pipes .................................................................. 78
Figure 5. Metal Granaries ............................................................................................................ 64
Figure 6. Classic Concrete Silo Elevator (Dnipromlyn) ................................................................... 64
Figure 7. Modern Steel Silo Elevator (Penkivskyi Elevator) ............................................................. 64
Figure 8. Port Transshipment Complex – Elevator (LLC JV Nibulon) IPT Vector .............................. 65
Figure 9. Main Elevator Elements ............................................................................................... 65
Figure 10. Ukraine: Automobile Road Map ................................................................................ 87
Figure 11. KamAZ-6520 – Grain Carrier .................................................................................. 88
Figure 12. Universal Grain Carriers – Dumpers with right-Side and Two-Side Unloading .................... 89
Figure 13. Semitrailer Grain Carrier – Cistern (60 m³) .................................................................. 89
